

testo 103 Digital Folding Thermometer, Testo

The testo 103 the smallest folding thermometer of its class! It offers a handy and practical support when carrying out monitoring measurements. The folding thermometer testo 103 measures temperatures precisely in production, storage and processing, in gastronomy, supermarket chains, food retail and wholesale, or in industrial areas. The testo 103 already begins measurement from a fold-out angle of 30°, and can therefore be used flexibly. After measurement, the probe can be simply folded away, and the instrument stored safely until the next measurement – for example in a trouser pocket. The folding thermometer testo 103 is compliant with HACCP and EN 13485.

- The folding thermometer testo 103 is handy, hygienic, and thus suitable for measurements of all kinds.
- At 11 cm the smallest folding thermometer of its class.
- It is quickly ready to hand and always available.
- Its narrow probe tip is ideal for spot check measurements.
- It has an easy-to-clean white ABS housing and is equipped with a robust probe.
- It fulfils protection class IP55.

Technical data:

Measurement unit:	Temperature (°C / °F)
Sensortyp:	NTC
Measuring range:	-30 to +220°C
Resolution:	0.1 °C / °F
Accuracy:	± 0.5°C (-30 to +99.9°C) ± 1% (+100 to +220°C)
Display:	LCD, 1-line, not illuminated
Measuring rate:	2 measurements per second
Response time:	t ₉₉ = 10 sec (in moving liquid)
Storage temperature:	-30 to +70°C
Operating temperature:	-20 to +60°C
Battery type:	2 x CR2032 Lithium batteries
Battery life:	300 h (typical)
Battery change:	by yourself
Housing material:	ABS (white)
Switching on/off:	With folding mechanism (ca. 30°) / Auto Off after 60 mins
Protection class:	IP55
Warranty:	2 years
Dimensions (probe folded out):	189 x 35 x 19 mm
Weight:	49 g (incl battery)

Article	Order No.
