

Protective Gloves and Aprons, IDL

CRYO GLOVES® and CRYO APRON® with CE certificate. Protective gloves and aprons provide protection at temperatures of up to -160°C , which makes this gear ideal for working in deep freezers and with cooled liquids, as well as handling dry ice (-72°C) and liquid nitrogen in the gas phase.

CRYO GLOVES® come in standard and waterproof versions (WP). WP = 100% waterproof for use with infectious and toxic substances; cryo gloves also have an internal glove made of Teflon.

CRYO GLOVES®/CRYO APRON® are registered trademarks.
Originals only from Tempshield Inc.

CRYO GLOVES® protective gloves, standard version

Model	Type	Size	Length cm	Order No.
