

Food Homogenizer, LAT

BagMixer 400 / Jumbo Mix 3500

With a noise emission of under 48 decibel, the new BagMixers S & SW homogenize your food samples in a sterile bag. Different stresses of up to 28 kg pressure per paddle can be set at the digital control panel arranged on top of the unit. In the BagMixer SW, the patented LiquidSensor automatically stops homogenization if a leak is detected (SW). By means of the likewise patented Click & Clean technology, the autoclavable paddles and the collection tray can be removed for easy cleaning. Also the robust stainless steel housing and the polycarbonate interior are easy to clean. LED lamps at the bottom of the unit inform the user of the current status: green light signals readiness for operation, amber signals 'operating', and red stands for fault/leak.

The new BagMixers S & SW are the high-end supplement of the existing BagMixer 400 series.

The different models for the 100 ml and 3,500 ml bags continue to be available.

Technical data:	BagMixer 400 S / BagMixer 400 SW
Homogenization time:	from 1 sec to 59 min or continuous operation
Speed:	4, 6, 8 or 10 beats per second
Dimensions:	29 × 45 × 37 cm
Weight:	26 kg
Power supply:	100 – 240 V, 50 – 60 Hz
Capacity:	50 to 400 ml

Article	Order No.
① BagMixer 400 P with steel door	10 20 14001
② BagMixer 400 W with viewing window	10 20 14002
③ BagMixer 400 S with steel door, extremely quiet	10 20 14003
④ BagMixer 400 SW with viewing window and fluid detector, extremely quiet	10 20 14004
JumboMix 3500 VW with viewing window, up to 400 g probe, 200–3500 ml	10 20 13500
