

Acid and Base Cabinets, Köttermann

Acids and bases should be stored in specific cabinets with continuous ventilation for reduced pollution of the breathable air. Leak-tight basins safely collect also larger volumes of leaking fluids.

Premium resistance:

Köttermann acid and base cabinets are made of solid polypropylene, a material renowned for its extreme resistance.

- Material: highly resistant polypropylene
- Color: arctic white; NCS S 0505 R 80 B
- Equipment: double wing doors, lockable, extractable PP basins welded leak-tight, carrying capacity 30 kg. Exhaust air connection DN 75
- Integrated fan
